

Synthetic Roofing That Delivers Real Value for HOAs

Inspired by Nature, Perfected by Brava.

Homeowner Associations create neighborhoods via homes that look well put together, neat, and inviting. Brava tiles combine the authentic beauty of nature with the unrivaled performance of engineered technology, making them the perfect roofing solution for Homeowner Associations across the nation.

Using our special molding process, we produce roofing tiles that look better and are far stronger than traditional natural materials, enabling them to withstand the elements of wind, rain, hail, and sun beautifully. Brava tiles' unmatched long-term durability and easy maintenance means that homes keep looking great for years, so property values are maintained and homeowners stay happy.

Creating Greater Curb Appeal.

It's a well-known fact that property values increase with their appeal, durability, and overall longevity. Creating this kind of curb appeal in communities is important for HOAs, especially when attracting new residents. Brava tiles not only bring better value for homes due to their lasting strength, but also because they offer HOAs roofing options that can be more aesthetically and architecturally pleasing than asphalt shingles, concrete tiles, or slate, shake, or clay tiles.

Protection HOAs Can Count On.

Ensuring a roof is up for the job is not only critical for the property's appearance, but is equally important for protecting the home and valuables from outside forces such as extreme winds, hurricanes, hail, snow, rain, UV impact, and fire. The ultimate shield for protecting any home, Brava tiles are designed to meet the highest standards for wind, fire, and impact, and are UV resistant as well.

Backed by a 50-year warranty, Brava tiles go above and beyond to create roofing that lasts a lifetime. And with the potential for wildfires in dry areas of the United States rising as well as more severe hurricanes along the coastline, the value of a home with Brava roofing tiles is heightened even further.

**Class A or Class C fire
rating**

**Class 4 impact
resistance rating - the
highest hail performance
certification recognized
in the industry**

**Miami-Dade approval,
providing wind protection
in excess of 110 MPH**

Guaranteed for 50 Years, Enjoyed for a Lifetime. Perfecting the Look of Your Community.

Creating a cohesive and beautiful-looking community is easy with Brava tiles. Available in a wide variety of styles to fit nearly every type of house, the lightweight design of Brava tiles means they can be installed on any roof without any costly structural modifications or special tools.

Brava tiles have the color, look, and texture of natural materials such as slate, wood, and barrel tiles and can be customized to any color a homeowner desires. Infused with natural minerals, our patented multi-coloring process allows for each tile to have a blend of colors with coloration through the entire tile – mirroring the beauty of nature itself.

Cedar Shake

The true-to-life look of hand-split cedar shake with the long-lasting durability of composite material.

Brava Cedar Shake Aspen

Spanish Barrel Tile

The warmth and beauty of traditional clay tile with the benefits of a lightweight synthetic material.

Brava Spanish Barrel Tile Antigua

Old World Slate

The elegance and durability of natural slate with the benefits of composite roof tile, at a fraction of the cost.

Brava Old World Slate Light Arendale

The Eco-Smart Roofing Solution.

More than ever, homeowners today want a house that is ecologically efficient and does not harm the environment in any way. At Brava, we use recycled material to create a beautiful and durable roof that itself is fully recyclable. An eco-friendly solution, Brava avoids depleting natural resources such as quarries for slate or lumber for wood. With Homeowner Associations being environmental managers for their communities, choosing Brava tiles is a smart way to go.

Discover the Lasting Beauty, Style, Durability, and Strength of Brava Roof Tile Today.
